

# FME Form

Design intuitive workflows to convert, validate, and integrate your data. Simplify complex tasks, remove manual ones, save time, and improve data quality.

Connect your data sources and build data transformation workflows using a user-friendly drag and drop interface. No coding required.

Access hundreds of pre-built transformers to handle a wide range of data manipulation tasks.

Clean, validate and improve the quality of your data. Collaborate on workflows fostering teamwork and knowledge sharing.

# FME Form It's Where You Begin.

The industry leader in geospatial data integration, FME is a powerful no-code enterprise platform.

Build workflows in a few quick clicks, support hundreds of data formats and integration between multiple applications.

Use readers and writers to define how data enters/exits your workflow. Choose from hundreds of transformers to perform specific actions on your data i.e. filtering, formatting, or spatial calculations.
